[www.stenner.com/stennicator\\_video.htm](http://www.stenner.com/stennicator_video.htm)

**THE STENNICATOR IS A PERISTALTIC MEDICATOR** that injects livestock water at 1:128 with sanitizers, disinfectants, nutrients and medications. Strong chemicals do not affect the pump tube.

## STENNICATOR INSTALLATION

- ① **Direct injection** into the water line
- ② **Eliminates bypass valve & garden hoses** that restrict water flow to the drinker lines
- ③ **Standby setting disables pumping** while the water meter pulse is sent to the house controller
- ④ **Unaffected by water quality**, scale or solids that can clog or deteriorate traditional medicator seals
- ⑤ **Small foot print** easily allows a second pump for water flows up to 5.4 gpm or 325 gph

# THE STENNICATOR

1:128 MEDICATOR

Water meter activated; select from  
3 settings: 1 ppg, 10 ppg or 1 ppl

---

Stock solution does not contact any  
moving parts

---

Easily serviced with effortless  
tube replacement

- Unlatch & slide cover off
  - Replace the tube
  - Slide the cover on & re-latch
- 

The Stennicator Meter System is also available  
and includes a pump and 3/4" or 1" water meter  
pre-mounted on a heavy duty panel for quick  
installation. The single system includes one  
pump and the dual system includes two.
